be Mustered Out.

thing of the past Lieutenant Copper, regimental quartermanier, assisted by a force of men, is busy to-day distributing canvax pants to like men. Twelve hundred paths, for the parts of the people of the paths, for the parts of the paths, for the parts of the paths, for the paths of the paths, for the paths of the pat

been very successful. When all possible signers have been obtained the petition will be sent to Senator Martin with the request that he do what lies in his power to have the Third mustered out.

Others papers of the same description are said to be in course of preparation. There are numbers of men in the regiment who are anxious to remain in the army two years. They believe that a chance will be given them to see Cuba or some of the other Spanish possessions and these will not sign the petitions under any circumstances but it is not unlikely that a majority of the men are ready now to go home and only wait the opportunity.

The boys all over the camp are bewall-The boys all over the camp are owner-ing the fact that their friends at home send them very few boxes now. They used to come in by the wagon load but on an average of hardly three a day reach here at present. The boys are reach here at present. The boys are afraid that the failure of boxes to arrive is an indication that their young lady friends at home are fast forgetting them

Who the Carlists Arc.

A correspondent asks what is meant by the frequent reforence to the foar of a Carist uprising in Spain. At the death of king Ferdinand of Spain in 183, his three-year-old daughter, inabolia II. succeeded to the throne, though Carlos Ferdinand is brother, calimed to he entitled to the bonor under the salid law, which provided that no female should go to the throne as long as any male descendant of the King was living. This law, however, had been revoked by Ferdinand, who had no children at the time, but six months after his death a daughter was born, and she became Queen to the exclusion of Carlos. The latter's descendants, who are called Carlists; have since persistently Insisted that, by right of succession, the threne belongs to them, and for over fifty years Spain has been subject to Carlist uprisings, which have simply meant a number of unsuccessful wars, the destruction of property, and general public unrest. The Carlists have found their strength in what are called the Basque provinces, dominated mostly by the cleracy, who believe in the divine right of kings and of kingly succession. The inabitants of the Rasque region are largely shepherds and farmers. They are good fighters and have been the main strength of the Carlist favor of a republic exists in the cittes, where the people have been led to independent views by education, rending and tween what are called the Republicans.

A WATER PARTY.

A Cloudburst in Pennsylvania Drowns Five Children in a Swollen Stream.

The water in the run began to rise this morning, and at 9 o'clock a great volume of water came down. The missing children, together with some older persons, were standing on a porch of the brick tenoment house on Violet alley in the rear of Main street near West Carsen. This porch overhung the run.

When the great wave, twenty feet high, came down the porch was carries away and the seople went with it.

Mrs. John Loftus, mother of the two children first named, and two men were the adults in danger. The woman made a heroic effort to save her children, but to no purpose.

Near the mouth of the run the sand dredge Pittsburg was mocred, and when the men in it saw the wreckage coming down the stream and the people struggling for life they stopped all else and went to the rescue. The men and women were carried out into the Ohio river, but were saved by the sand diggets.

was almost overwhelmed a number of times, but each time fought off the debris and came to the surface.

The great body of water did much damage. A sand bar fifteen feet high at the foot of the run was washed away. Parties of men are searching for the bodies of the children.

There was, a heavy and continuous downpour of rain throughout Western Pennsylvania from midnight until 8 a clock this meraing and considerable

Strong Bill Next Week.

Manager Pizzini feels confident of having an exceedingly strong list of attractions next week at Main-Street Vaudeville Park, and was strengthened in the belief yesterday when he received the following letter from Manager B. R. Johnson, of River Blew Park. Baltimore, from which most of his talent is drafted. "Enclosed, find copy of my programme as requested. Happy to say this is the strongest bill I have had this season. Everybody on it is a star and pleused the people. Hoping it will prove satisfactory to you. I will write you in a few days about forming circuit next summer."

The running bill which has been so popular this week will have its closing presentation at the matinee this affernoon at 4:20 o'clock and to-night at the usual hour. a clock this morning and considerable

damage was done by washouts and the overflowing of small streams, but as far as known there were no other casualties.

and they followed right behind. The car had been well filled and the girls were in a hurry. I stepped to one side and in sign language said to the one right behind me:

"Excuse me, I am sorry to be in your

ment, and I would not have missed the expression of hor face as her eyes met mine for anything. It was a blush to remember. Without explaining to the other girl, who was behind her, she grabbed her arm arm that the state of th other girl, who was benind her, she grad-bed her arm and hustled her about face and out of the other door. As I reached the platform I saw the girl whom I ad-dressed explaining it to the other girl, whose face indicated that she was strugwhose tace indicated that she was strug-gling between mortification and mirth. Just as they turned toward the bridge both of them looked back at me. I smil-ed and raised my hat. They laughed and on they went. It was a pleasant lit-tile entertainment for a down-town trip." -New York Sun

SOME ARIZONA STORIES.

Concerning Snakes, Harmful and Helpful, a Gila Monster and Toads.

The mining camp of Kingman was recently invaded by a host of rattlesnakes, creating great consternation among the people. Snakes were discovered in beds people. Snakes were discovered in dear and made desperate fights when tackied by the owners. People sleeping out-doors narrowly missed a violent death from the poisonous fangs of the screents. The snakes wiggled through the crevices of tight board fences, and were caught while endeavoring to enter the houses. People have taken to sleeping upstairs. while endeavoring to enter the houses. People have taken to sleeping upstairs, and a band stand and pavilion are crowded every night by sleepers who dare not risk sleeping on the bare ground. A spell of unusually warm weather is thought to be the cause of the snakes leaving their rocky fastnesses for a cooler abode in the settlement.

a cooler abode in the settlement.

A man at Mosa City has a pet glia monster. He let it go about six weeks ago in order that it might shed its skin, as is its annual custom. The other day it returned to its usual haunts, looking thoroughly rejuvenated. Its owner gave it a bath, after which it made a break for its feed box, where it has been in the habit of eating eggs and other lux-

Southern Arizona and often exhibit a preternatural intelligence. Recently arolights were started at Mesa City and myriads of higs are in consequence attracted at night by the glare. The toads tracted at night by the glare. The toads have discovered this new source of supply and cat the bugs that fall to the ground as rapidly as they come within reach. It is supposed that the new dist has created an unnatural thirst, and in looking around for a source from which to quench it they discovered the troughs that receive the drippings from the beer faucets in the saloons. They now intrude in the saloons and line up to the troughs and drink until they are thoroughly intoxicated, many falling to the floor as though dead, while others un-

James Thomas, a ranchman living on the Verde River in Yavapai county, has discovered a scheme that threatens to revolutionize existing trrigating methods. While walking along the Canal bank life other day he observed an enormous bull enake stretched at length, with its head in the water and its body pulsating like a steam pump. Observing the reptile still more closely, he was amazed to see still more closely, he was amazed to see a stream of water flowing from its tail. It was actually pumping water. The buil snake is a harmless creature, and Mr. Thomas, seized with an idea, also seized the snake. How to make it throw a larger stream of water was the question, and after considerable thought he

not entirely successful, several of the snakes busting through unevenness of pressure.—Denver Republican.

Carrier Pigeons at Sea.

Carrier Pigeons at Sea.

Carrier Pigeons at Sea.

Carrier Pigeons are now being generally used in the navy, and men-of-war leaving ports where homing pigeons are established will send their last messages by these floot flyers. It is the carrier pigeon that renders our Mosquito Fleet so effective, for should a hostile craft he signted these pigeons Sould apprise a nevy yard of its coming before it got nearer than two hundred miles to the coast. The "St. Paul" carried six on this trip. The birds were loosed with messages a little before noon of the second day, some two hundred miles from Sandy Hook. These birds at first skirted slown toward the water, but quickly recovered and then went up quickly and seemed forthwint to divine the right direction. They flew straight astern, in a hee-line for their sole. The next three got away better, and implify assembled in the air and fiel astern, then circled a little to fine west, and finally two birds flow north and the third independently flew east. This bird did not get its bearings and flew in a zigzag course, first cast, then west, until beyond view. On thew east. This bird did not get its bearings and flew in a sigzag course, first cast, then west, until beyond view. On one leg of each bird is a band of aluminium with a number and on the other the message. This is placed in a small cylinder of aluminum which is attached to the leg of the bird by a cylinder clasp. The weight is but slight, for the metal is very light and the paper is very thin.—Collier's Weekly.
